

VAKKI Publications 2021

VAKKI Publications is a peer-reviewed open access journal with Publication Forum level 1 (<http://www.julkaisuforum.fi/en>). Previous VAKKI Publications volumes are available at <https://vakki.net/>.

Guidelines for Contributors

Dear Authors,

Deadline for submission of full-length manuscripts (based on the accepted abstracts) is May 3, 2021. Please submit your manuscripts as a file attachment (in RTF, DOC or DOCX format) to publication@vakki.net. Name the file by using the title of your paper (for example, *metaphorsinscience.rtf*). Accepted languages for publication are Finnish, English, Swedish and German.

In order to be accepted for publication, we expect that manuscripts state the aim, theoretical background, data and method (for empirical papers), findings and conclusions. Manuscripts that have already been published will NOT be accepted.

Manuscripts will be selected for publication through a double-blind peer review process, which means that both the reviewer and author identities are concealed from the reviewers, and vice versa, throughout the review process. Please follow these guidelines carefully to facilitate the publication process.

Guidelines

1. Please include your contact information, the title of the paper and institutional affiliation(s) in a separate document (e.g. *firstname_surname.rtf*). Since papers are blind peer-reviewed, the paper itself should not refer to your name(s) or contain other identifying marks. Cite your own previous work(s) as you would cite the works of other authors.
2. Manuscripts must not exceed 14 pages (including figures, tables, **but not** references and one appendix). Plenary paper manuscripts must not exceed 20 pages (including figures, tables, **but not** references and one appendix).
3. Please use 1.15 (14 pt) line spacing. The font should be set to Times New Roman (12 pt). Set the width of all margins (left, right, top and bottom) to 3 cm. Please use page numbering and place the numbers at the top of the page.
4. The first page of the manuscript must contain the title of the paper (18 pt font), the abstract in English, and 3–5 keywords (in the same language as the article, in

alphabetical order) characterizing the text. The article itself should also start on the first page. The font used in the abstract should be Times New Roman (10 pt), and the line spacing should be set to 1. The maximum length of the abstract is 15 lines.

5. Use numbered headings for different parts of the article, e.g. 1 Background and Aims, 2 Material, 3 Method etc. In English headings, capitalize the first letter of every content word.

6. Do not indent the first lines of paragraphs: leave a blank line between paragraphs instead. Do not use hyphenation at the end of lines. Turn off automatic hyphenation in your word processor.

7. Please mark direct quotations by using quotation marks. Direct quotations longer than 3 lines and all longer examples should be given as indented (1 cm) paragraphs (10 pt font, line spacing: 1). If you give examples, please number them consecutively: (1), (2), (3)...

8. Illustrations, graphics, tables, etc. should be included in the paper itself (i.e. do not send them separately as file attachments) and they should have titles. Please number all illustrations, graphics and tables etc. consecutively, and always refer to them in the text using the number in question.

9. Use italics or bold for emphasis; avoid underlining.

10. Avoid using footnotes (10 pt font, line spacing: 1). Do not use endnotes.

11. If you present examples that are in language(s) other than the article is written in, please provide your own translations of the examples and either place both language versions in the text or list the originals in an Appendix (at the end of the paper)

12. The referencing system used in VAKKI publications is based on the Harvard/CBE system. Please see the examples below for details.

References in the text:

Further exploration of this aspect may be found in many sources (e.g. Kangasharju, Säntti & Piekkari 2010: 13; Aaltonen 2005: 190).

VAKKI's policy on archiving publications in parallel repositories

After the VAKKI Publications manuscript is published by VAKKI, authors are allowed to publish their manuscript in their own university's institutional Open Access repository or in other sites, like ResearchGate, Academia.edu or LinkedIn. In this case, the repository version is allowed to be the final article that appears in the VAKKI Publications. The link to the original article on the publication platform of VAKKI should be given. The author may publish the article as part of her/his thesis, even if the thesis is an online version.
